DUNEWRIGHT COLONY WORKS
Settlement Site 4 · Construction Division · Organization

WHO ANSWERS TO WHO.

15,210 WORKERS, ONE CHAIN OF COMMAND. LEARN THE STATIONS, NOT THE NAMES. PEOPLE ROTATE. STATIONS DON'T.

YOUR CHAIN OF COMMAND

FIELD CREWS · BOTTOM TO TOP

YOU	CREW LEAD	FOREMAN	GENERAL FOREMAN	SECTOR SUPER	DEPUTY, OPS	DIRECTOR
Crew member · 1 of ~12	Runs one crew · Ch	~4 crews	One trade, one sector	All work in one sector	All 8 sectors + trades	The whole build

Take problems one step up, not five. Safety is the exception: any Safety & Health officer (green hat) can stop your work, and you can go straight to one about any hazard.

SITE ORGANIZATION

HEADCOUNT AT FULL REVIVAL

COLONY CONSTRUCTION DIRECTOR
The Hub · Ch 2 "Hub Command" · white hat

DIRECTOR'S STAFF & SECURITY
Planning, scheduling, records · Security 150 · staff 60

DEPUTY, OPERATIONS
Everything that gets built

- **8 Sector Superintendents** — Alpha–Hotel · 880 each · 7,040
- **Crane & Lift** — Operators, riggers, signal persons · Ch 11 · 900
- **Heavy Equipment Pool** — Haulers, loaders, dozers, printers · Ch 12 · 1,400
- **Fabrication Yards** — Machinists, welders, cutters · sector edges · 1,600
- **Polymer Works** — Polymer and composite techs · Golf · 700
- **Electrical & Power** — Grid, power cells, site lighting · 1,100

DEPUTY, SAFETY & HEALTH
Stop-work authority site-wide

- **Safety & Health Officers** — ~1 per 75 workers · in every sector · 200
- **Fire & Rescue** — Hub HQ + sector teams · confined space rescue · 240
- **Atmospheric Office** — Weather, WBGT, sandstorm warnings · Ch 16 · 40
- **Industrial Hygiene** — Air, noise, silica and chemical monitoring · 20

DEPUTY, ENGINEERING
What gets built, and is it right

- **Design & Structures** — Plans, lift plans, temporary works · 260
- **Survey** — Layout, grids, settlement monitoring · 140
- **QA/QC & Inspection** — Welds, bolts, pours, polymer cures · 120

DEPUTY, LOGISTICS
Everything you need, delivered

- **Quartermaster** — PPE, tools, water, rations, ice · Ch 15 · 600
- **Materials & Laydown** — Steel, panels, feedstock · 220
- **Transport** — Crew shuttles, site roads · 80

DEPUTY, MEDICAL
Keeps you alive and working

- **Central Med** — The Hub · surgery, ICU · Ch 14 · 140
- **Forward Aid Stations** — One per sector · medics · 120
- **Stasis Revival Unit** — Wake-up, clearance, ramp tracking · 80

INSIDE ONE SECTOR

SAME LAYOUT IN ALPHA THROUGH HOTEL

1	2	6	18	70	~780
SECTOR SUPERINTENDENT	ASSISTANT SUPERS (DAY / NIGHT)	GENERAL FOREMEN, ONE PER TRADE	FOREMEN	CREW LEADS	CREW MEMBERS

TRADES IN EVERY SECTOR

- **Steel & ironwork:** erection, bolting, decking
- **Structural print & concrete:** printed walls, pours, finishing
- **Framing & panels:** hab shells, cladding, seals
- **Site services:** trenching, utilities, pipe
- **Finishing & fit-out:** interiors, hatches, fixtures
- **General labor:** laydown, cleanup, water runs, cooling stations

Cranes, heavy equipment, fabrication, polymers and power are site-wide departments. They're assigned into sectors job by job and take direction from the sector on site.

WHO TO GO TO

PROBLEM	GO TO
Hazard, unsafe order	Crew lead or any green hat. You can stop work.
Injury or illness	Ch 1 if serious, otherwise your sector's Forward Aid Station
PPE, water, tools	Quartermaster, Ch 15
Ramp day, revival issues	Stasis Revival Unit through your crew lead
Plan looks wrong	Foreman, then Engineering (white or grey hat)
Crane or lift question	Lift supervisor on Ch 11

HEADCOUNT

FULL REVIVAL, ALL SHIFTS

STATION	REPORTS TO	WORKERS
8 sectors (Alpha–Hotel)	Deputy, Operations	7,040
Fabrication Yards	Deputy, Operations	1,600
Heavy Equipment Pool	Deputy, Operations	1,400
Electrical & Power	Deputy, Operations	1,100
Crane & Lift	Deputy, Operations	900
Logistics (Quartermaster, Materials, Transport)	Deputy, Logistics	900
Polymer Works	Deputy, Operations	700
Engineering (Design, Survey, QA/QC)	Deputy, Engineering	520
Safety & Health, Fire & Rescue, Atmospheric	Deputy, Safety & Health	500
Medical and Stasis Revival	Deputy, Medical	340
Director's staff and Security	Director	210
Total		**15,210**

Hard-hat colors follow station. See Module 1 for the full color key and the radio reference for call signs.

Structure follows Old Earth construction practice: field supervision ladder (crew lead, foreman, general foreman, superintendent), safety staffing near 1 per 75 workers, and incident command principles.
